

# HEDS-OVC Community Questionnaire

## Section A: Preliminary Details/ Maelezo ya mwanzo

The ideal community group for this survey includes a mixture of elders and younger adults; an equal mix of men and women; representation of all the religions in the vicinity; and if possible or relevant, representation of all ethnic groups. Suggested size is around **6 to 8 adults**. Representation is for a village, ie a few hundred people. This is very important to explain as it affects peoples' answers. Please note that groups cannot be reimbursed for their time. It is also important to try and include religious leaders (priests, pastors and imam's) in this community group

## **Preamble / Utangulizi**

My name is \_\_\_\_\_ from Research Solutions. With the District Children's Office and the University of North Carolina we are doing a study to understand the socioeconomic situation of families in this area, particularly poor children and orphans. This information will be used by the Ministry of Gender, Children & Social Development to develop programs and support for vulnerable families. We are conducting similar meetings in about 172 communities across Kenya. I would like to talk to adults. If possible, the group should include elder and younger people, men and women, and people of different religions. It will take just over one hour. We would greatly appreciate your co-operation in this research because your experience and your suggestions are very important. The information that you provide us with will be kept confidential, and is for research purposes only. Your names will not appear in any report that comes out of this study. The information will be used for improving services only. I would like to ask you some questions about all the people in this village and some other things about the village, for example, transport services or access to shops. When you are answering questions about the people here I would like you to answer in general for the people in the immediate village. It is important to think about the behaviour of the poorest people when answering these questions. You do not have to participate in this discussion. If you choose not to participate it will not change any services or benefits that you receive now or in the future. You can stop participating at any time without problems.

*Mimi naitwa \_\_\_\_\_ kutoka Research Solutions. Tukiwa na Ofisi ya Watoto Wilayani pamoja na University of North Carolina tunafanya utafiti katika sehemu hii kuhusu mpango wa kuwasaidia watoto maskini na mayatima. Hii itasaidia kujua zaidi kuhusu mahitaji ya watu mbalimbali katika sehemu hii. Matokeo yatatumiwa kuuboresha mpango huu. Ningependa kuzungumza na watu wazima. Iwapo inawezekana, kundi lijumuishe wazee Na vijana, wanawake Na wanaume, na pia wawe wa dini mbalimbali. Itachukua takriban saa moja. Itakuwa furaha yetu iwapo utashirikiana nasi katika utafiti huu kwa sababu ujuzi na maoni yako ni muhimu sana. Ujumbe utakaotupa utawekwa kwa siri, na utatumiwa kwa utafiti pekee. Majina yako hayatakuwepo katika ripoti itakayotokana na utafiti huu. Habari zote zitatumika kwa kuimarisha huduma. Tungependa pia kurudi na kukuhoji tena pengine baada ya mwaka mmoja. Ningependa kukuuliza maswali kuhusu watu wote kijijini humu na mambo mengine kuhusu kijiji, kwa mfano, huduma za usafiri au njia za kufikia maduka. Unapojibu maswali kuhusu watu wa hapa ningependa ujibu kwa ujumla kwa watu wa kijiji hiki. Ni muhimu kuifikiria mienendo ya watu maskini zaidi unapojibu maswali.*
